Naked Cup 16 oz
Item #: **NC16**
Case Qty: **500**

Naked Cup 20 oz
Item #: **NC20**
Case Qty: **500**

NAKED CUPS ARE **UNCONDITIONALLY** COMPOSTABLE

Your Green 2 Go introduces another revolutionary first of its kind - a truly compostable cup that decomposes in a home compost - **NO SPECIAL COMMERCIAL COMPOSTING FACILITY REQUIRED.**

Naked Cups contain **no PLA or other petroleum based plastic** and **they perform as well as any regular cup.**

While technically compostable, PLA coated products can only be composted in commercial composting facilities and **most commercial composting facilities will not accept PLA.** Given this, are products coated with PLA truly compostable?

Naked Cups from Your Green 2 Go biodegrade, no commercial facility required, making them **unconditionally compostable.**
