

INTRODUCING
SERV A CROWD™

CATERING DELIVERIES MADE EASY!

Fold → Fill → Slide → Deliver

What could be easier? **Fold** the inner tray, **Fill** it with the products ordered, **Slide** on the outer sleeve, and **Deliver**.

Versatile design - The **Serv-A-Crowd Delivery Box System** measures 23"W x 15"D x 8"H, big enough to hold a wide variety of products, including our polypro containers or your aluminum trays.

You can't stack a sack, but **Serv-A-Crowd** is constructed of double-wall corrugated material that is **designed for stacking**.

The **Serv-A-Crowd Delivery Box System** is comprised of three components: the outer sleeve, inner box, and platform divider

Outer Sleeve

Inner Box

Platform Divider

Integrated handles make carrying a snap.
